COMMENTS

:

Note 1: This report must be submitted to the Boiler Safety Bureau ten working days prior to operation.

Note 2: Exemptions listed in G.S. 95-69.10(b) include: (1) private residences and apartments of less than 6 families, and (2) water supply boilers and potable water heaters not exceeding 200,000 BTUs input or 120 gallon storage capacity or an operating temperature of 200°F. Hydronic heating boilers are not excluded.

Note 3: The installer will be invoiced for the inspection fee, unless otherwise specified herein.

Note 4: Include Federal Tax Identification Number or company officers Social Security Number and Unemployment Identification Number.

Note 5: Indicate object size by pounds steam/hr, Btu/hr, Kw/hr, boiler horse power, gallons storage capacity, cubic feet storage capacity, or diameter x length.
