RE: Fire Service Key Switches

Please be advised when modernizing or installing an elevator in a building that has existing elevators, there is a requirement to upgrade all fire service key switches to the most current fire service switch FEO-K1 (Section 2.27.8 A.S.M.E A17.1). There is no exception to this requirement.

If you should have any questions, please contact our office for further interpretation.

Respectfully,

Thomas M. Chambers
Bureau Chief
