

Cherie Berry  
Commissioner of Labor

Tom Chambers  
Assistant Bureau Chief  
Elevator and Amusement Device Bureau

To: All Amusement Companies  
From: Tom Chambers, Assistant Bureau Chief  
Date: June 11, 2009  
Subject: Safety Amusement Star Program

Please review the information attached to this e-mail regarding the requirements for the Safety Amusement Star Program. Companies interested in participating in this voluntary program must answer questions and provide copies of the completed application to our office. Upon receipt of a completed application, the review process will take two weeks. The application is self-explanatory and should be completed entirely.

For those receiving this correspondence who are not familiar with the program, please allow me to define it more clearly. The program requires any company participating to go above and beyond what is required statutorily for those who operate amusement devices in North Carolina. Some of the specific requirements may not be applicable to your company; however, the information you will be asked to provide will be subject to a site review visit. Our review team will verify your information before your company will be accepted into the program. All companies that are approved for participation will receive a certificate of participation signed by Labor Commissioner Cherie Berry.

Once the participating company has completed the site review process and its documentation meets the requirements of the program, the company will receive a flag displaying the Safety Amusement Star logo to fly at every location they contract in. This program was developed to recognize those companies that operate in our state above what is required by law. These companies are committed to the safety of their patrons and employees alike.

For your convenience, we will have the information and applications available on our Web site at [www.nclabor.com/elevator/elevator.htm](http://www.nclabor.com/elevator/elevator.htm). Should you have any questions regarding the program, please call my office at (919) 807-2770.
