TO: ALL AMUSEMENT DEVICE COMPANIES OWNING A GRAVITRON RIDE
MADE BY WISDOM INDUSTRIES

FROM: Thomas Chambers
Asst. Bureau Chief
Elevator & Amusement Device Bureau

Due to recent problems with the Gravitron ride, we are now requesting that the owners planning to use this device in the state of North Carolina NOT assemble the ride prior to inspection. Please leave the ride folded on the trailer until the inspector arrives. This will help in the revised inspection process that we are now implementing for this particular ride.

We hope this will not pose any inconvenience, but it is in the interest of safety.

Thank you.
