COMMISSIONER

JOHN R. BOGNER, JR.
CONSULTATIVE SERVICES BUREAU CHIEF
DIVISION OF OCCUPATIONAL SAFETY AND HEALTH

FIRST AID POLICY

WELCOME!

This sample program is provided to assist you as an employer in developing programs tailored to your own operation. We encourage you to copy, expand, modify and customize this sample as necessary to accomplish this goal.

This document is provided as a compliance aid, but does not constitute a legal interpretation of OSHA Standards, nor does it replace the need to be familiar with, and follow, the actual OSHA Standards (including any North Carolina specific changes.) Though this document is intended to be consistent with OSHA Standards, if an area is considered by the reader to be inconsistent, the OSHA standard should be followed. Of course, we welcome your comments and feedback!

The North Carolina Department of Labor OSH Consultative Services Bureau can be contacted for further assistance such as helping you set up your individual program and even with on-site surveys. Feel free to contact us at 1-800-NCLABOR or at 919-807-2899. You may also want to visit our website at the following address: <http://www.nclabor.com/osh/consult/bcs1.htm> .

Remember: A written safety/health program is only effective if it is put into place!

FIRST AID POLICY FOR

(Company Name)

This policy does not supercede or replace an exposure control program that is required by 1910.1030 or 13 NCAC 07F.0201(a)(3) when there is foreseeable employee exposure to bloodborne pathogens arising from performance of an employees job duties, such as a designated first responder.

In the event an employee is injured on the job, first aid kits are available for them to treat their own injuries. In the event of a serious injury, 911 or medical response will be summoned. No employee is required to treat another's wounds. However, in the event "Good Samaritan" assistance is rendered, barrier protection is available in the first aid kits. The employer is not responsible for any exposure to blood or body fluids that the "Good Samaritan" may incur.
