

**Occupational Safety and Health Division
30-Hour/10 Hour General Industry
Awareness Course
September 22-25, 2008**

The North Carolina Department of Labor is pleased to announce this semiannual training opportunity for North Carolina employers and employees. This workshop is designed to help North Carolina employers understand the requirements and programs necessary in providing an acceptable safety and health program for the workplace. It will provide an overview of the 29 CFR 1910 Safety and Health Standards for General Industry. [Click here for an agenda.](#)

The 30 hour course is scheduled for September 22nd through 25th. During the 30 hour course, a 10 hour course will also be offered (September 22-23). Attendees must pre-register for either the 10 hour course or the 30 hour course. Final registration procedures will take place at 8:00 on the first day of class. The course instruction will begin at approximately 8:00 a.m. each day. Attendees are on their own for lunch. Coffee will be provided for break service. The course agenda is attached below. Upon completion, attendees will receive either a 10 Hour General Industry Card or a 30-Hour General Industry Card. This class is **free of charge** and presented by OSH employees. The 30 Hour Course will satisfy the 30-hour core requirement for the MESH certificate.

The location for this workshop will be Blue Ridge Community College, Bo Thomas Auditorium, 180 West Campus Drive, Flat Rock, NC 28731. [Click here for directions.](#)

Because this is being offered at **no charge**, it will be limited to the first 75 registrants. [Click Here To Register.](#) If you have any questions regarding registration contact Nancy Gregory at (919) 807-2875.

* **Please note:** You must attend all 10 or 30 hours of the workshop to receive a certificate for the 10 or 30 hour course.
