

Health Hazards Special Emphasis Program (SEP)* (Construction & General Industry)

This presentation covers the OSH NC Health SEP. It will provide an overview of the following health hazards in the General Industry and Construction Industries. To include hazard identification and assessment, administrative & engineering controls and personal protective equipment. These live web training courses are **free of charge** and presented by N.C. Department of Labor OSH Division employees.

All web courses are limited to 50 students. You will receive a confirmation e-mail with instructions 24-36 hours prior to the day the class starts.

Please Note: We are excited to continue to provide webinars to the public. They are a very popular training method. However, effective November 1, 2009, we will no longer provide certificates for multiple attendees at a single computer. Certificates will only be provided to those who register and log into the system.

**Total class hours equal MESH credit time earned.*

**This information can be used to supplement your site specific training materials but is not to be considered a substitute for your organization's specific safety and health program or training materials.*
