

OSHA Recordkeeping (300 Logs)* (General and Construction Industry)

These workshops will provide an overview of the standard including the applicable and exempt industry groups, a review of the required forms and acceptable substitutes, and the decision-making steps to determine what cases must be recorded and how to properly record them. These live web training courses are **free of charge** and presented by N.C. Department of Labor OSH Division employees.

All web courses are limited to 50 students. You will receive a confirmation e-mail with instructions 24-36 hours prior to the day the class starts.

Please Note: We are excited to continue to provide webinars to the public. They are a very popular training method. However, effective November 1, 2009, we will no longer provide certificates for multiple attendees at a single computer. Certificates will only be provided to those who register and log into the system.

**Total class hours equal MESH credit time earned.*

**This information can be used to supplement your site specific training materials but is not to be considered a substitute for your organization's specific safety and health program or training materials.*
