

## Inspection Process\* (General and Construction Industry)

This presentation provides information on what triggers an OSH compliance inspection, OSH's right to enter a workplace, the types of inspections, how inspection activity is prioritized and the overall inspection process. Additionally, information on multi employer worksites, how penalties are assessed and informal conferences and contestments are also discussed. These live web training courses are **free of charge** and presented by N.C. Department of Labor OSH Division employees.

All web courses are limited to 50 students. You will receive a confirmation e-mail with instructions 24-36 hours prior to the day the class starts.

**Please Note:** We are excited to continue to provide webinars to the public. They are a very popular training method. However, effective November 1, 2009, we will no longer provide certificates for multiple attendees at a single computer. Certificates will only be provided to those who register and log into the system.

*System Requirements:*

*Internet Explorer 5.0 or higher and computer speakers required.*

*\*Total class hours equal MESH credit time earned.*

*\*This information can be used to supplement your site specific training materials but is not to be considered a substitute for your organization's specific safety and health program or training materials.*
