

INSPECTION OF CONSTRUCTION CRANE

WELCOME!

This sample program is provided to assist you as an employer in developing programs tailored to your own operation. We encourage you to copy, expand, modify and customize this sample as necessary to accomplish this goal. Be advised that this construction crane monthly inspection checklist was developed to help you comply with a North Carolina state-specific requirement under 13 NCAC 07F.0915.

This document is provided as a compliance aid, but does not constitute a legal interpretation of OSHA Standards, nor does it replace the need to be familiar with, and follow, the actual OSHA Standards (including any North Carolina specific changes.) Though this document is intended to be consistent with OSHA Standards, if an area is considered by the reader to be inconsistent, the OSHA standard should be followed. Of course, we welcome your comments and feedback!

Remember: A written safety/health program is only effective if it is put into place!

Mobile Crane Monthly Inspection

Inspection Checklist may also be used for shift inspection

Signature of Competent Person _____ Date*: _____

Crane Model:	Crane Serial #	Max. Crane Capacity:
--------------	----------------	----------------------
